

For the past 4 years, WMGF Magic 107.7 in Orlando has committed 4 full day of air time to helping our organization raise funds and awareness of Shands Children's Hospital at the University of Florida and Arnold Palmer Hospital for Children & Women -- Central Florida's Children's Miracle Network hospitals. Last year their radiothon raised more than \$400,000 in pledges to our organization in 4 days. This money and support is critical to our hospitals and the services they provide to Central Florida children. Many of the programs and services they offer are dependent on the money they receive from Magic 107.7 listeners. We at Greater Orlando Children's Miracle Network are big believers in the power of radio to help our community and, especially, our children.
